

Los Angeles County Arts Education Profile District Questionnaire

Introduction

The Los Angeles County Arts Commission, on behalf of the Arts Ed Collective (the LA County arts education initiative), is collecting information regarding the quality, quantity and equity of arts education in LA County school districts and schools.

This survey is to be completed by the Superintendent of the district or their designee. It will take approximately 20 minutes, and will ask questions about arts instruction, arts teachers, professional development and other detailed aspects of the arts education infrastructure at your district.

When completed by all participating districts and schools, the resulting data from this survey will provide a snapshot of the current state of arts education at your school site and district. With that in mind, please answer questions to the best of your ability. Feel free to reach out to any colleagues you think may have accurate information or answer "I don't know" if you are unsure of the answer. The more accurate the information, the better.

While the results will be shared with Arts Ed Collective staff, your name will not be attached to any of your responses.
