

# Los Angeles County Arts Education Profile School Site Questionnaire

## Introduction

The Los Angeles County Arts Commission, on behalf of the Arts Ed Collective (the LA County arts education initiative), is collecting information regarding the quality, quantity and equity of arts education in LA County school districts and schools.

This survey is to be completed by the Principal of the school or their designee. It will take approximately 20-40 minutes, and will ask questions about arts instruction at your school.

When completed by all participating districts and schools, the resulting data from this survey will provide a snapshot of the current state of arts education at your school site and district. With that in mind, please answer questions to the best of your ability. Feel free to reach out to any colleagues you think may have accurate information or answer "I don't know" if you are unsure of the answer. The more accurate the information, the better.

While the results will be shared with Arts Ed Collective staff, your name will not be attached to any of your responses.

Just a few notes on terminology:

1. Unless otherwise stated, these questions refer to arts education during regular school hours.
2. Unless otherwise stated, these questions refer to the 2016-2017 school year.
3. "Elementary" refers to grades Pre/K-8
4. "Secondary" refers to grades 9-12.
5. The different art forms referenced in this survey - with the exception of Media Arts - are taken from the Visual and Performing Arts Content Standards for California Public Schools (<http://www.cde.ca.gov/be/st/ss/documents/vpastandards.pdf>). Media Arts here includes screen-based projects presented via film, television, radio, audio, video, the Internet, interactive and mobile technologies, video games, transmedia storytelling, and satellite as well as media-related printed books, catalogues, and journals.
