The Development of the strategic plan for arts education is a partnership between the Los Angeles County Arts Education Collective and San Gabriel Unified School District. In 2018-2019 a group of stakeholders from the District formed a Community Arts Team worked with Arts Ed Collective Coach, Sandy Seufert, and worked to create this Strategic Arts Plan.

Los Angeles County Arts Commission – Arts Education Collective

In 2002, the Los Angeles County Board of Supervisors established the Arts Education Collective to align efforts across the region with the ambitious goal that LA County's 1.5 million public school students receive a well-rounded education that includes the arts.

The Arts Ed Collective is comprised of policy makers, educators, arts organizations, teaching artists, funders, business leaders and community advocates. Strategic direction for the initiative is guided by the Leadership Council and Funders Council. The Los Angeles County Arts Commission offers administrative support and the Los Angeles County Office of Education (LACOE) provides curriculum and instructional services for educators Countywide. The History of Arts Education and Project Background in SGUSD

In 2009, a goal to establish a comprehensive, integrated visual and performing arts program at every level, was written into the SGUSD Educational Master Plan and approved by the school board. Shortly thereafter, economic recession, along with a drastic shift in how California schools are funded (LCFF) resulted in the plan being shelved.

For the past 12 years, VAPA in SGUSD remained unchanged. Quality programs for some arts disciplines have been in place, but without district-wide coordination. In 2015, the Music Immersion Experience program (MIE) was implemented at Roosevelt Elementary, using music as intervention, and with it, came an arts administrator position (MIE program coordinator) at the district level for the first time. This simple access point to decision makers, eventually led to the bringing together of all VAPA teachers in the district during a district in-service day in February 2018. The conversations that took place revealed the vast potential that exists here in SGUSD within our own talented staff, as well as a strong desire to connect and revisit past efforts to expand/improve VAPA throughout SGUSD. At the start of the 2018-2019 school year, SGUSD partnered with the LA County Arts Ed Collective to create a 5-year VAPA strategic plan. A committee of approximately 20 community members was brought together to collaborate. Like most of California, SGUSD is experiencing declining enrollment, among other competitive factors, that limit available funding. However, the district believes in the power of arts education, and is committed to support improvement and expansion to serve all SGUSD students equitably with high quality arts education.

Why now?

SGUSD recognizes the importance of the arts, not only to satisfy the requirements of providing a well-rounded education, but for the social-emotional health of our students. Throughout America, we are seeing an alarming increase of mental health issues in our young people. It has never been more imperative to ensure equitable access to quality arts education, and San Gabriel Unified recognizes the need to address gaps within our district. To effectively address these weak areas will require the puzzle pieces of a clear vision, leadership, commitment, skillful personnel, a thoughtful plan, and the passionate desire to see it through. In 2018-2019, these puzzle pieces all came together for SGUSD, with the help of the LA County Arts Ed Collective. It is clear to us that the time is NOW to undertake these efforts for the long-term benefit of ALL SGUSD students, as well as our community at large.

Current Reality from Data Review

The district utilized the online Arts Ed Profile from the Arts Ed Collective to review arts education data from neighboring school districts. In addition, the group reviewed the CREATE CA online Arts Education Data Project which shows data for secondary schools throughout California. The CAT team worked in specialized groups to review this data with a focus on capturing additional strengths challenges, and opportunities. The findings from the data review are summarized below:

Data Source	Strengths	Challenges	Opportunities
Arts Ed Profile (LA County Data Grades K-12)	<p>Alhambra Unified School District:</p> <p>Has dance, 94% music, 33% theater,</p> <p>33 FTE (Full Time Employees) Music, 7 FTE Visual Arts, 2 FTE Media Arts, 1/6 FTE Dance</p> <p>Temple City Unified School District:</p> <p>4.5 FTE Music, 5 FTE Visual Arts, Lower number of students in poverty</p> <p>San Gabriel Unified School District:</p> <p>Partners with the community, including several Cultural Partners; has 57% SED population and is still providing quality offerings; After school program offer more choices</p>	<p>Not all of Districts participated in the survey, making comparisons difficult</p> <p>% of school offering arts education may be high, but the number of Full Time Employees teaching the arts is low</p> <p>Funding sources are unknown</p>

Media Arts, as a newer art form, is also present.</p> <p>There are 39 FTE Arts Educators and 18% of secondary students are enrolled in Music and 19% are enrolled in Visual Art.</p> <p>In looking at the Year Over Year Dashboard, instrumental lessons are up in enrollment, arts funding is up, and other Arts/Media Arts is also up</p>	<p>Statewide enrollment in some sort of arts education is 39%</p> <p>There is a huge drop in enrollment after “fundamental” classes (meeting a requirement)</p> <p>Theatre and dance have the lowest enrollment of all disciplines (in SGUSD and throughout the State)</p> <p>Data represented for SGUSD is not accurate (choral music not included for Gabrielino)</p> <p>At the 10th grade enrollment in the arts drops</p> <p>Elementary, other than Roosevelt, arts education is inconsistent year to year</p> <p>Introductory (does not move past fundamentals)</p> <p>Arts are often funded through PTA, SEF</p> <p>There is no dance and theatre instruction</p>	<p>Statewide enrollment in dance and theatre is 19% overall – more students could take advantage of opportunities</p> <p>There are opportunities for cultural equity – 49% Free Lunch versus 97% accessing the arts</p> <p>In Middle School, especially in Music, there is opportunity for parent engagement as 50% of these students are enrolled in Music</p> <p>There is an opportunity to have more accurate data reporting, which could lead to more funding **</p> <p>Many parent engagement opportunities exist</p>
